Ordinance No. 84.

An Ordinance providing for summary trials and proceedings in cases of violations of the Police Ordinances of Carson City.

The Board of Trustees of Carson City do ordain:

SECTION 1. The trial and proceedings in all cases wherein any person or persons are charged with violating any ordinance or provision of an ordinance of Carson City of a police nature, shall be summary in character and tried by the Recorder of Carson City, without a jury.

Approved,

T. R. HOFER, President.

Attest: Wm. Hy Doane, City Clerk.

Adopted Sept. 4, 1891. s63t

A REPETITION OF LAW.

The City Ordinance is Late in Being Understood.

CARSON, Nev., Sept. 8, '91.

Editor APPEAL, Dear Sir:—An article appeared in last Saturday's News eulogistic of the Board of Trustees of Carson City for passing an ordinance, at the request of the District Attorney, depriving all persons hereafter arrested for a violation of any of the Ordinances or by-laws of the corporation of Carson City, of the right of a trial by jury, which right is secured to all by the State and Federal Constitutions.

The article referred to would never have appeared if the writer had the slightest knowledge of the well known principles of law which make clear the distinction between criminal offences enumerated in public statutes of the State and mere ordinances or by-laws of a municipal corporation made in pursuance of an Act of the Legislature of the State.

Offenses against ordinances or by-laws made in pursuance of the charter of the corporation for the preservation of the peace, good order, safety and health of the place, and which relate to minor acts and matters not embraced in the criminal statutes of the State have never been regarded as criminal in England or the U. S. They are summary in their character and are triable without a jury, because of their non-criminal nature and the denial of a jury is not in conflict with that provision of our State Constitution which guarantees to all persons accused of crime a fair and impartial trial by a jury of twelve men.

It is clear that whenever a city ordinance or by-law is in conflict with the laws of the State, the former must give way, and whenever a city ordinance makes an act punishable by fine and imprisonment which is already made so by the laws of the State, the person tried for the commission of the act is entitled to a jury trial notwithstanding any ordinance or by-law to the contrary.

The City Recorder has no jurisdiction concurrent with the Justice of the Peace; he has none over criminal cases arising under the laws of the State not peculiarly municipal. An Act of the Legislature that confers on the Recorder the powers and duties of a magistrate in criminal cases has been held by the Supreme Court of this State as unconstitutional.

It is an elementary principle that all courts must take judicial cognizance of laws, civil or criminal, published in General Statutes and requires no proof; but an ordinance being a mere by-law of a corporation, required by the Legislature of the State to be passed in a certain manner, must be proven to be regularly adopted whenever called in question in a Court.

From all the well considered cases, the principle is clearly deducible, that in cases of minor offenses such as maintaining houses of prostitution, disorderly houses, tipping houses, burdurdy and dance houses within certain limits, the Recorder may summarily try them without aid of a jury; but offenses provided for by the city corporation, which are made criminal by the Legislature of this State are triable by a jury if demanded by the accused because the right is secured to him by the Constitution.

Yours Respectfully,

LAW STUDENT.

Guns, whose shots show a remarkable initial velocity, of 2150 feet per second, are now being constructed at the Washington Naval Ordnance Works for the Pirate, the triple-screw commerce destroyer. It is calculated that the greater length and increased range of these guns, combined with the remarkable speed of the cruiser, will enable her to choose her own positions when bent on carrying out the operations for which she was designed.
